About

A Full Stack aspiring developer specializes in building complete applications by managing both backend logic and frontend interfaces. They leverage Core Java for foundational backend logic, Spring Boot for efficient API development, loosely coupled architectures and inter-service communication, ensuring responsiveness. On the frontend, they use HTML, CSS, JavaScript, and frameworks like React to build dynamic, user-centric interfaces. This cohesive skill set enables the development of high-performance, full-stack applications.

Projects

Ecommerce Full Stack

November 2024

- Developed a **Full-Stack eCommerce Platform** that allows users to browse products, add them to their cart, secure.
- The system is built using **React** for the frontend to create a dynamic and responsive user interface, and **Spring Boot** for the backend to handle business logic and API integrations.
- Integrated the application with a **SQL database** to manage product data, user profiles, and order histories.
- Designed and implemented **RESTful APIs** for product catalog management, user authentication.
- Github Repository Link: <https://github.com/eklakhshekh653/EcommerceProject>

Project Quiz App

October 2024

- Developed a quiz web application using **Spring Boot** for the backend and **REST APIs** for seamless communication between frontend and backend.
- Implemented dynamic features with **JavaScript** to create an interactive and engaging user interface.
- Built key functionalities such as quiz, user test knowledge, score tracking, and real-time feedback.
- Github Repository Link: <https://github.com/eklakhshekh653/quiz-tests>

Hostel Management

September 2024

- Developed a **My Hostel Record** using **Spring Boot** for backend and **REST APIs** for smooth frontend-backend communication.
- Built a **Hostel Management System** with features like room search, student management, utilizing **React** for a dynamic and responsive UI.
- Implemented essential functionalities such as user data management, and real-time updates for both applications.
- Github Repository Link: <https://github.com/eklakhshekh653/HostelManagementBackend>

Certificates

Java Full Stack Web Development

July 2024

I have taken Java Full Stack course from CodeforSuccess. It was a 6 month course which has been completed which includes core java and advance in spring boot, security and frontend in react.

Certificate Link: <https://drive.google.com/file/d/1JQLNqOK2RjmoBBNIOsdJTpjtTJ5TGAIH/view?usp=sharing>

Technical Skills

Languages Java, JavaScript, Python

Technologies/Frameworks: React Js, Tailwind, **Spring Boot**, Spring Jpa, **Spring Security**, GitHub.

Skills: Problem-Solving, Full Stack Web Design.

Education

Guru Kashi University Punjab

Master Of Computer Application — CGPA: 8.68

2023 – 2025

Bathinda, Punjab
